Certificate of Consotherapy Oncology Therapist (COT)

• It Has been approved as a formal academic education program by the California BPPE. Every acupuncturist or Chinese medicine clinician inevitably has cancer patient consultation. How to use acupuncture, herbal medicine, diet therapy and other therapies as a treatment aid for Western medicine oncology to give correct help to cancer patients? The main teacher of this course, Dr. Jeffrey ZhongxueMah, PhD, LAc, as early as 1986, his doctoral thesis was to use Chinese medicine to help precancerous lesions. Since then, his main clinical direction is the Chinese medicine oncology. He believes that a single Chinese medicine method is difficult to help cancer patients more effectively. For this reason, he proposed to combine multiple therapies to help cancer patients, that is, consotherapy (consolidated therapy).

Through more than 30 years of clinical practice, consotherapy has been continuously improved and perfected, and it has been reported in many international academic conferences and some universities. It has also been used as a continuing education course in the United States very early.

The qualifications to participate in this course are:

1. Participants in the United States must have an acupuncture license, which must be provided with a copy of the license during the validity period;
2. Participants from other regions must have local legal medical qualifications and must provide a copy when registering;
3. Western medical practitioners can participate;
4. Participants must meet any of the above conditions.

Graduation Qualification

1. The quiz pass score for each class is above 70% of the total score.
2. After completing all 10 lessons, you need to submit an academic paper within 15 days, requesting:
 - 1) The topic selection should be closely linked to any content of the course;
 - 2) The content must be original without any plagiarism. Chinese characters require 1500 words or less. Above, English requires characters 2000-3000 or above.
 - 3) The paper has three opportunities to be revised, 15 days each time, starting from the date of notification after the teacher reviews.
 - 4) For the specific format and requirements of the paper, there will be additional special data for students.
 - 5) The paper is graded on a 100-point scale, with a score of 60 or more passing, accounting for 30% of the total score
3. Those who meet the above two requirements are qualified to obtain the certificate of Oriental Medicine Oncology Therapist (OMOT) by the Institute of Oriental Medicine

肿瘤康梭疗法专家证书

本课程已经被美国加州高等教育部核准为正规学历教育课程。

课程说明

每个针灸师或中医临床人员，都不可避免地有癌症患者咨询。如何运用针灸、草药、食疗等疗法，作为西医肿瘤学的治疗辅助，给癌症患者正确的帮助？

本课程主讲老师，麻仲学博士，早在 1986 年他的博士论文，就是运用中医药帮助癌前病变，从此他的临床主要方向，就是中医肿瘤科方面。他认为，单一的中医疗法，很难给癌症患者更有效的帮助，为此他提出将多种疗法有机地集合起来帮助癌症患者，也就是康梭疗法。

通过 30 多年的临床实践，康梭疗法不断得到提高和完善，并多次在国际学术大会、一些学校进行报告，也在美国很早就作为继续教育课程，参加者普遍反应有帮助。

本课程系统地介绍康梭疗法的理论和临床应用，包括以下内容：
